

It's your money

Save, spend or invest with your HSA

Your BenefitWallet® Health Savings Account (HSA) is a powerful savings tool that you can use to save, spend or invest for your – and your family's – health care expenses.

Three ways to use your HSA

1

Save

Contribute to your HSA regularly. Then, save your HSA funds to build a safety net for unexpected health care costs.

Anything you save rolls over year to year, so there's no risk of losing unspent funds.

Will you be prepared?

\$7,500

Potential cost of a broken leg

\$30,000

Average cost of a 3-day hospital stay

2

Spend

Use your HSA to pay for health care expenses and extend the buying power of your income.

Save up to 35% on qualified medical expenses such as medications and medical, dental and vision care.

The more you spend, the more you save.

\$4,500

Annual out-of-pocket medical costs

\$2,515

Potential annual tax savings

3

Invest

Similar to a 401(k), your HSA has investing features that can be used once your balance reaches \$1,000. Investing can grow your savings over time.

This is helpful since the average retired couple needs an estimated \$390,000 to pay for out-of-pocket expenses.

Watch your HSA grow.
